PARKING AVAILABLE FOR Papal Visit AT CLICKANDPARK.COM

ORLANDO, FL – Pope Benedict XVI will be performing Mass in our Nations Capital on Thursday, April 17 and Click and Park has been selected to offer parking permits for this once in a lifetime event. Attendees attending the Papal visit at the new Nationals Park can pre-purchase parking online at ClickandPark.com. The Click and Park service allows attendees to reserve and pay for parking permits prior to leaving assuring that a space in their selected parking lot will be ready and waiting for their arrival. Parking will be at RFK Stadium with shuttle bus transportation to Nationals Park provided by Callaway Transportation. Due to limited availability of parking spaces on the day of the event, pre-purchasing your parking is strongly suggested.

“We are honored to have the opportunity to provide our services for this wonderful event,” said Tony Vitrano, Owner of Click and Park. “We have worked with two of the biggest sporting events in the Super Bowl and the Olympics, adding the Papal Visit to our resume speaks volumes about the diversity of clients Click and Park can work with.”

Click and Park not only allows attendees to reserve parking, but also provides helpful driving directions that go beyond simple ‘point-to-point’ instructions. The service considers the traffic management plan for a particular venue and integrates it into its patented routing system. Considering the user’s point of origin, the system directs them to a pre-determined access point where they are brought in line with the prescribed traffic management plan. If the system generates a number of directions that meet a given roadway’s traffic capacity, the system will then direct drivers to a secondary route in order to more evenly distribute traffic.

About Click and Park

Click and Park is an online parking and traffic management system used by event planners and parking management companies to provide consumers access to pre-registered parking for special events. Customers can purchase reserved parking online prior to an event, reducing the need for personnel to manage transactions and earning revenue in advance of the actual event. The Click and Park service also helps to alleviate traffic and parking troubles by providing detailed routing instructions to all permit purchasers. These detailed directions support the venue’s transportation management plan – resulting in a more efficient, time saving flow of traffic.

The Orlando-based company shares ownership with Gameday Management Group which plans and operates complete transport and parking systems for major events, directing spectators, media, teams, staff, sponsors and corporate clients. Gameday has managed transportation and parking services for high-profile events including the Salt Lake City Winter Olympic Games, Super Bowls XXX-XLII, the Daytona 500 and the Presidential Inauguration.
